Electronics and Navigation Equipment

Installed electronics include
Dual frequency colour depth sounder,
JRC Radar,
Garmin Widescreen colour chart plotter,
2 x ICOM Fixed VHF,
2 x ICOM Handheld VHF

Additional Info

Adept is equipped with removable ploughing winch and "A" frames for performing ploughing / sub surface jetting.

Adept normally operates when plough dredging with a 6m³ Plough.

When operated in here plough dredging configuration Adept offers truly unrivalled manoeuvrability and production when compared to multicats and conventional screw vessels for dredging in confined and difficult spaces during any stage of flow of tide
